RISK MANAGEMENT
Identify, access and control the threats & risks.

LIVE REPORTING
Report real time `incidents and track live locations.

GEO LOGIN
Authenticate the login and logout of every staff member on site by identity and location.

COMPLIANCE
Follow procedures to ensure all industry standards and legal obligations are met.

ANALYTICS
Generate digital data to describe, predict and improve business performance.

EMERGENCY MANAGEMENT
Coordinate efforts to respond & recover from emergencies.

TRAINING
Provide training and career development for staff through our online platform.

SITE SPECIFIC
Create specific SOPs suited for each individual site.

LIVE CHECKPOINTS
Scan QR or barcodes to identify personnel and their location.

LIVE COMMS
Communicate directly to security officers through live forums.

REMOTE MANAGEMENT
Monitor and control deployed staff members remotely.

LONE WORKER
Communicate directly to security officers to check welfare and status. This is perfect for lone workers.
